/**
 * ═══════════════════════════════════════════════════════════════════════════
 * CORNERSTONE INTERNATIONAL SCHOOL - FAREWELL 2025
 * Backend Server - Node.js + Express + JSON file storage
 * Upgrades included:
 * - Multi-admin users (Super Admin + sub-admins) with permissions + limits
 * - Site settings + Theme settings (full color pickers)
 * - Upload window controls + event auto-approve window
 * - Reactions (emoji-type) + legacy likes compatibility
 * - Reactions (emoji-type) + legacy likes compatibility
 * - Edit memory metadata (caption/type) + replace file
 * - Soft delete (trash) + restore + purge
 * - Bulk actions (approve/delete/restore/change category)
 * - Duplicate detection (SHA256)
 * - Advanced profanity filter (bad-words + obscenity + custom patterns)
 * - Chunked upload resume scroll support
 * - CSV export
 * - WebSocket live updates to clients/admin
 * NOTE: JSON storage is not ideal for heavy concurrency; this is best-effort "production-ish".
 * ═══════════════════════════════════════════════════════════════════════════
